Audit Findings

Audit Narrative

The Prison Rape Elimination Act (PREA) on site audit of Quitman County Community Work Center was conducted on Monday, April 15, 2019 and Tuesday, April 16, 2019. The audit was conducted by Vanessa R. Crawford, Certified DOJ PREA auditor.

Six weeks prior to the audit, posters were placed throughout the facility to alert all of the residents and staff of the impending audit, as well as, contact information for the auditor. On the day of the site visit, the auditor observed posters throughout the facility, to include posters by the inmate telephones.

The Pre-Audit questionnaire was submitted to the auditor two weeks prior to the audit. Additional documentation was received on the day of the audit.

The auditor was escorted to the facility by Lt. Lola Nelson, Regional PREA Compliance Manager. Upon arrival at the facility, the auditor was met by Warden Everett Mattheney-Regional Director of Community Work Centers, Commander Lynn Dixon and his staff, and Ms. Barbara Tyler, Branch Director, II (Accreditation Manager). I was provided a private office and staff and I discussed how the audit would progress. Introductions of staff were made as I entered and walked through the facility.

Residents were interviewed first so as not to disrupt their day. Sixteen (16) random residents were interviewed. All residents were familiar with PREA and acknowledged receiving PREA training within 1-2 days of their arrival at the facility during orientation. Many said they received the training within 1 day of arriving at the facility. All of them also indicated that refresher training occurs almost every month. Documentation in the files reflect the training of all the residents.

A total of 11 staff were interviewed, to include the Alcohol & Drug instructor, the volunteer chaplain by telephone, the part-time nurse by telephone and the work detail supervisor. All security staff from both shifts, who were on duty on audit day were interviewed also, and all persons interviewed were knowledgeable concerning PREA and how to respond to an incident. Documentation reflected training of all staff, the nurse and the volunteer.

I was given a tour of the entire facility which included the tower (control room), the dormitory areas, the kitchen which had locked areas for dry and cold storage, the administrative areas, the Alcohol and Drug Building, the storage sheds, which were locked, containing supplies for inmates, supplies for the operation of the facility and tools, the recreation yard with weights for the inmates, which was enclosed by 8 ft. fence with barb wire, the laundry, shower and the bathroom which was divided with metal partitions for privacy.

The laundry area was behind an expanding metal screen and the shower was fitted with curtains that provided privacy and security. Both of these areas could be viewed by the tower officer when in use. The dormitories could be monitored on the cameras by the control room officer at all times. Additionally, anytime that there were inmates in the A & D building, the cameras that were in that building were monitored by an officer at the front desk at the entrance of that building. The count on the days of the audit was 54.

The entire facility was very clean and well organized. All areas that needed to be secure had a lock on it. Cameras were installed where there were potential blind spots.

All of the staff was knowledgeable and seemed to be very proud of their facility. They were very experienced and were very professional in their presentation.

The inmates were neat, respectful and well groomed. There were no special needs residents at this facility. Nor were there any gay, transgender, intersex or gender non-conforming residents at this facility.

Facility Characteristics

Quitman County Community Work Center is located in rural Lambert, Mississippi in the Northwest region known as "The Delta". The facility initially opened in September, 1988 for the purpose of providing offender labor to the community. This mission continues to be the main focus of the facility. Community work centers are an alternative facility for inmates to finish serving their sentences. At a community work center, residents routinely perform work for cities, counties, state agencies and charitable organizations as defined by 501 (c) 3, and are a valuable source of free labor. The facility sits on five (5) acres of land. It consists of the main building and an adjoining building for Alcohol and Drug treatment. There are 3 small storage buildings in the rear of the main building for storage of supplies for inmates, as well as, for the supplies for the maintenance and operation of the facility. The kitchen is used for church services and visitation. The entire facility is surrounded by an 8 ft. fence topped with razor wire. The entire facility was very clean and very well maintained.
